

Mercedes A 45 AMG

"With the new A 45 AMG we have well and truly achieved our aim of developing the most dynamic, powerful and efficient four-cylinder series production car"

- Tobias Moers, Head of Overall Vehicle Development and Board Member of Mercedes-AMG GmbH

A new era of AMG has begun.

The A 45 AMG is the first compact car to be given the full AMG treatment – and it's been worth the wait!

With a maximum output of 265kW and 450Nm, the AMG 2.0-litre four-cylinder turbo engine is the most powerful series production four-cylinder engine in the world. Combined with AMG 4MATIC all-wheel drive, it's performance that outstrips even the most powerful super sports cars with a 0-100km/h sprint in just 4.6 seconds. It also leads its segment in terms of fuel consumption, running on just 6.9 L / 100kms.

Similarly to all eight and twelve-cylinder engines, the new AMG M133 2.0 litre four-cylinder turbo engine stays true to AMG's "one man, one engine" hand-built philosophy. Production of the M133 engine will come out KÖlleda, Germany.

It is set to revolutionise not only the performance hatch market, but the entire performance car market.

Standard Exterior Highlights

- 19-inch AMG Multi-Spoke Alloy Wheels
- Panoramic Glass Sunroof
- Intelligent Light System
- DISTRONIC PLUS
- Blind Spot & Lane Keep Assist
- AMG Night Package

Options

With this level of standard specification, the A 45 AMG is already a truly complete vehicle. For customer's looking to customise their vehicle even further, three options will be offered:

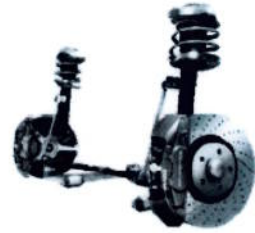

19" AMG Multi-Spoke in Black
Code 787
MRLP \$490

Perfectly complements the standard AMG Night Package exterior highlights.

AMG Aerodynamics Package
Code B26
MRLP \$1,990

Includes the AMG rear aerofoil, additional flics in front apron and a larger front splitter.

AMG Performance Suspension
Code 492
MRLP \$1,990

Includes a tauter spring (approx. +20% harder) tuning and a new damper setting designed for track orientated driving. No additional lowering is provided.

Pricing

	MRLP (exc GST, any LCT and on-road costs)	+	+	MRLP (inc GST, any LCT but exc on-road costs)
		GST	LCT	
A 45 AMG	\$68,091	\$6,809	\$0	\$74,900

Note, with a fuel usage classification of 6.9L/100km, the base A 45 AMG will not attract LCT. The current LCT limit for fuel efficient vehicles is \$75,375, meaning an optioned A 45 AMG **will** attract LCT hence all option MRLPs are inclusive of LCT.
